Soft Skills: research information, communication, proficient in excel, word

Language Skills:

- English: Good

Online Courses & Certificates:

- Advanced SQL for Data Engineering – Udemy
- Python for Data Science and Machine Learning – Udemy

PROJECT

PiBook Website Testing (Selenium, API)

- In this project, I performed testing for the PiBook website using tools such as Selenium and API Testing. Specifically:
- Selenium Testing: I tested the main functionalities of the website, including registration, login, product search, adding to the cart, and product selection, using Selenium WebDriver to automate the testing process.
- API Testing: I conducted API testing for features like creating new users, retrieving a list of users, and handling API responsetime using Postman.
