OBJECTIVE

I am a final year student majoring in Information Technology, passionate about software testing. I would like to participate in real projects at the company to develop my skills in requirement analysis, writing and running test cases, and using tools such as Jira. With a high sense of responsibility, quick learning ability and good English communication, I am ready to contribute to the success of the team and improve my own capacity in a professional working environment.

SKILLS & QUALIFICATIONS

Technical Skills:

- Excellent knowledge of Software testing techniques covered in the ISTQB syllabus
- Excellent Bug Reporting & Test Case writing skills
- Excellent test reporting skills (Test Plan writing-Test Progress & Summary Report writing)
- Excellent knowledge about Software Testing Tools (Testlink-JIRA-TFS-Trello)
- Very good mobile application testing skills
- Good knowledge about writing SQL queries
- Good knowledge about API Testing using Postman
- Good Knowledge about Performance Testing using JMeter

Soft Skills: research information, communication, proficient in excel, word

Language Skills:

- English: Good

PROJECT

PiBook Website Testing (Selenium, API):

- In this project, I performed testing for the PiBook website using tools such as Selenium and API Testing. Specifically:
- Selenium Testing: I tested the main functionalities of the website, including registration, login, product search, adding to the cart, and product selection, using Selenium WebDriver to automate the testing process.
- API Testing: I conducted API testing for features like creating new users, retrieving a list of users, and handling API responsetime using Postman.
